

CACFP Information

The Child and Adult Care Food Program (CACFP) provides nutritious meals and snacks that contribute to the wellness, healthy growth, and development of young children, and the health and wellness of older adults and chronically impaired disabled persons. Participating institutions receive reimbursement by serving these nutritious meals to eligible individuals who are enrolled for care at participating child and adult care centers. CACFP also provides meals and snacks to children and youth who participate in afterschool care programs or reside in emergency shelters.

We at the Sprout School participate in The Child and Adult Care Food Program (CACFP). Every family must fill out both forms as truthful and to the best of your ability to help us continue to provide nutritious meals and snacks to every family enrolled here at Sprout School.

New Families: Both forms should be dated for the first day of your child's start date.

Returning Families: Both forms should be dated for September 1 of the new school year.
